Stop Guessing. Start Glowing.

At IRIYA Wellness & Aesthetics, we believe skincare should be simple, strategic, and transformational. The Glow Menu was created to eliminate the guesswork and replace it with a clear system — one that adapts to your skin, your goals, and your lifestyle.

This is not another menu of endless choices. It is a roadmap — precise, results-driven, and curated by an MD + Pharmacist-led team that knows your skin deserves more than temporary fixes.

With every step, we're not just treating symptoms; we're rebuilding skin health, confidence, and glow that lasts.

Why IRIYA?

YOUR GLOW MENU

The Glow Menu is your personalized roadmap to skin health—simple, strategic, and science-led. Each phase guides you from discovery to transformation, maintenance, and refinement, building lasting results and radiance at every step.

Phase 1 — DISCOVER

Advanced Skin Imaging + Glow Formula

Your glow begins with insight. Through advanced skin imaging and a comprehensive consultation, we identify exactly what your skin needs, define your glow goal and create a personalized roadmap to transform your skin. This is roadmap is your Glow Formula — a plan designed to evolve with you, not against you.

Phase 2 — TRANSFORM

Regenerative Treatments + Corrective Care

This is where change begins. Using advanced regenerative therapies and targeted clinical treatments, we correct skin concerns at the cellular level — from fine lines and scars to pigmentation, acne and volume loss. Every treatment is mapped to your Glow Goals, ensuring transformation that is precise, visible, and lasting.

Phase 3 — SUSTAIN

Maintenance Treatments + Integrative Wellness

Your glow is preserved through ongoing care that fits your lifestyle. Precision treatments and wellness therapies work together to maintain results, strengthen skin health, and support balance from the inside out. This is where skincare becomes routine — consistent, intentional, and long-lasting.

Phase 4 — REFINE

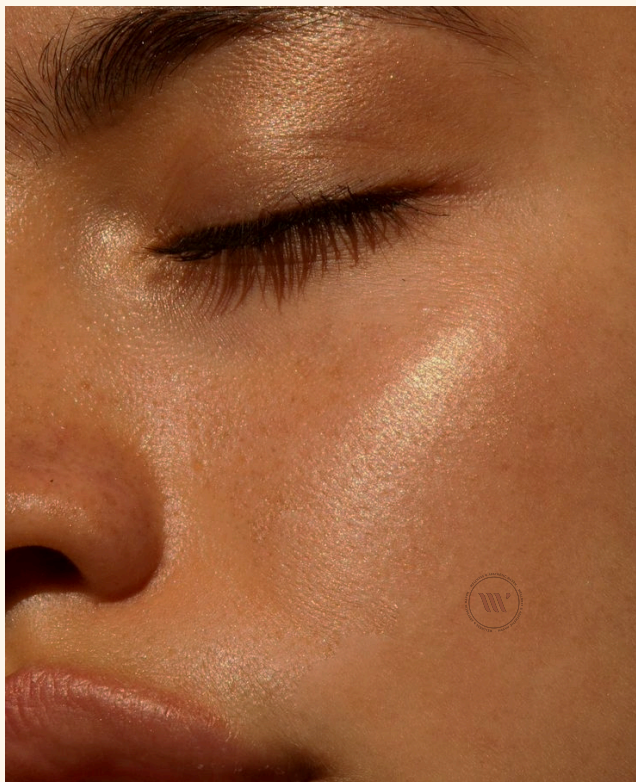

Check-Ins + Ongoing Care

Skin is dynamic, and your plan evolves with it. Through seasons, life changes and environments, it is always changing. Through regular check-ins, we adjust your Glow Formula to match your progress and goals. Each refinement elevates your results further, keeping your skin radiant, resilient, and always aligned with your best self.

YOUR GLOW GOALS

Glow Goals are the foundation of your Glow Formula plan. Mapped in the Discover phase with advanced skin imaging, they pinpoint the concerns holding your skin back. Each Goal links your concerns to clear outcomes — guiding a plan that's intentional, strategic, and results-driven.

Goal — YOUTH

What do you see on your skin?

Loss of volume, fine lines, sagging, aging skin structure.

What is your goal?

Firmer, smoother, lifted, youthful skin - turning back the clock.

Goal — CLEAR

What do you see on your skin?

Active acne, scarring, and textured skin.

What is your goal?

Fewer breakouts, smooth texture, faded scars - clearer complexion.

Goal — BRIGHTEN

What do you see on your skin?

Pigmentation, uneven tone, and skin dullness.

What is your goal?

Luminous and even-toned skin - a lit-from-within glow.

Goal — CALM

What do you see on your skin?

Redness, irritation, sensitivity, or rosacea.

What is your goal?

To soothe and strengthen your skin - your balance is restored.

Goal — HYDRATE

What do you see on your skin?

Dehydrated, dry, flaking, and crepey skin.

What is your goal?

Plump, supple, and dewy skin - your glow from within.

The Curated Consultation Experience

PHASE 1 - DISCOVER

30 MIN | \$ COMPLIMENTARY

(limited time - typically \$100 value)

This is where transformation begins. Using advanced skin imaging, expert insight, and deep discussion, you'll finally see and understand your skin. Together, we define your Glow Goal, then map your Transform and Sustain treatments. The result: your personalized Glow Formula — a clear guide to your skin's transformation.
